

Lumenate™

Lumenate is a nutrition source specifically formulated for the entire life cycle of flowering plants to help maximize genetic potential.

Guaranteed Analysis

Calcium (Ca)	1%
Boron (B).....	0.06%
Cobalt (Co).....	0.05%
Copper (Cu)	0.05%
0.05% Water soluble Copper (Cu)	
Iron (Fe)	0.1%
0.1% Water soluble Iron (Fe)	
Manganese (Mn).....	0.2%
0.2% Water soluble Manganese (Mn)	
Molybdenum (Mo).....	0.01%

Derived from: montmorillonite clay, calcium silicate, disodium octaborate, cobalt sulfate, copper sulfate, iron sulfate, manganese sulfate, sodium molybdate.

Net Contents

32 fl. oz. (0.94 L)
2.37 lbs. (1.07 kg)

1 gallon (3.78 L)
9.5 lbs (4.3 kg)

5 gallons (18.92L)
47.5 lbs (21.5 kg)

30 gallons (113.56L)
285.0 lbs (129.3 kg)

275 gallon (1,039 L)
2,557 lbs. (1,182 kg)

Density:

9.50 lbs per gallon at 68° F
1.14 kg per liter at 20° C

Caution: The application of fertilizers containing molybdenum may result in forage crops containing levels of molybdenum which are toxic to ruminant animals.
Caution: Some flowering crops may suffer from excessive application of boron. Use of this product on crops other than those recommended may result in injury.

This product is intended for application to flowering or fiber crops and should only be used in accordance with the manufacturer's instructions. Application rates will vary based on crop type and growing conditions. Please check with your Ozadia Plant Science consultant for detailed application rates, or visit www.ozadia.com for a general application schedule. Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfc.org/metals.html>

Description: Lumenate is a nutrition source specifically formulated for the entire life cycle of flowering plants to help maximize genetic potential.

Application rates and timing: This product is intended for application to flowering or fiber crops and should only be used in accordance with the manufacturer's instructions. Application rates will vary based on crop type and growing conditions. Please check with your Ozadia Plant Science consultant for detailed application rates, or visit www.ozadia.com for a general application schedule.

Handling: Store in a cool and dry area out of direct sunlight. This product has been tested to store safely down to 35°F. Crystallization or sedimentation may occur below 35°F or above 95°F. Agitate or shake before use. Keep diluted solution agitated and apply within eight (8) hours of mixing to avoid excessive bacterial growth. When tank mixing: A jar test is recommended when combined with other products: Prepare a small amount of the proposed mix and allow it to stand in a glass jar overnight, observing for signs of incompatibility. Agitation is the key to usability and efficacy of this product as it contains tiny particles too small to clog filters. If they are inadequately diluted or agitated during application, there is a possibility of problems with small spray nozzles. Compatibility and/or performance cannot be guaranteed when combined with other products.

CAUTION: Keep out of reach of children and pets. Do not swallow.
