

Mojo™

2-2-2

Mojo is a blend of essential macronutrients to drive vigorous plant growth throughout the crop cycle.

2 - 2 - 2

Guaranteed Analysis

Total Nitrogen (N)..... 2%
2% Water soluble Nitrogen (N)
Available phosphorus (P₂O₅) 2%
Soluble Potash (K₂O) 2%
Calcium (Ca) 1.5%
Magnesium (Mg)..... 0.5%
0.5% Water soluble Magnesium (Mg)
Sulfur (S) 1%

Derived from: corn steep powder, calcium silicate, magnesium sulfate and kelp.

Net Contents

This product is intended for application to flowering or fiber crops and should only be used in accordance with the manufacturer's instructions. Application rates will vary based on crop type and growing conditions. Please check with your Ozadia Plant Science consultant for detailed application rates, or visit www.ozadia.com for a general application schedule. Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html>

Description: Mojo is a blend of essential macronutrients to drive vigorous plant growth throughout the crop cycle.

Application rates and timing: This product is intended for application to flowering or fiber crops and should only be used in accordance with the manufacturer's instructions. Application rates will vary based on crop type and growing conditions. Please check with your Ozadia Plant Science consultant for detailed application rates, or visit www.ozadia.com for a general application schedule.

Handling: Store in a cool and dry area out of direct sunlight. This product has been tested to store safely down to 35°F. Crystallization or sedimentation may occur below 35°F or above 95°F. Agitate or shake before use. Keep diluted solution agitated and apply within eight (8) hours of mixing to avoid excessive bacterial growth. When tank mixing; A jar test is recommended when combined with other products: Prepare a small amount of the proposed mix and allow it to stand in a glass jar overnight, observing for signs of incompatibility. Agitation is the key to usability and efficacy of this product as it contains tiny particles too small to clog filters. If they are inadequately diluted or agitated during application, there is a possibility of problems with small spray nozzles, Compatibility and/or performance cannot be guaranteed when combined with other products.

CAUTION: Keep out of reach of children and pets. Do not swallow.
